

Art.-Nr. 4046255

**Benefits:**

- Easy handling
- No calibration required
- Ready for immediate use
- For gaseous and liquid CO<sub>2</sub>

## ASCO CO<sub>2</sub> Dew Point Tester

The ASCO CO<sub>2</sub> Dew Point Tester reliably indicates the dew point (moisture content) of your CO<sub>2</sub>.

This equipment makes it easy to measure the dew point of liquid and gaseous CO<sub>2</sub>. A laminated, illustrated step-by-step short instruction sheet in A3 format and a detailed instruction manual are supplied with each tester. The ASCO CO<sub>2</sub> Dew Point Tester (stainless steel) can be used either wall-mounted or free-standing.

### ASCO CO<sub>2</sub> Dew Point Tester: Standard scope of supply

Complete kit comprises:

- complete dew point tester
- Thermometer
- Pair of protective gloves
- Protective glasses
- Dry ice snow bag
- High pressure hose
