

ASCO i-Series Technology

Pelletizer: P75i / BP420i / BP425i

At ASCO, i-Series stands for networked production. Whether for fast and efficient problem solving and machine maintenance or for recording production and performance data, the i-Series offers a range of possibilities to connect Industry 4.0 and dry ice production.

All i-Series models are equipped with the latest remote maintenance technology and thus offer a variety of services in the areas of remote access, remote data, remote management.
