

Testing Equipment

ASCO CO₂ Dew Point Tester

part no. 4046255

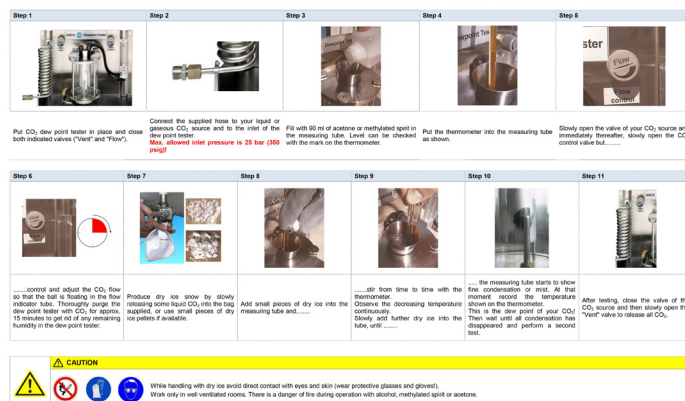

The **ASCO** CO₂ Dew Point Tester reliably indicates the dew point (moisture content) of your CO₂.

This equipment makes it easy to measure the dew point of liquid and gaseous CO₂. A laminated, illustrated step-by-step short instruction sheet in A3 format and a detailed instruction manual are supplied with each tester. The **ASCO** CO₂ Dew Point Tester (stainless steel) can be used either wall-mounted or free-standing.

Advantages of a CO₂ Dew Point Tester:

- easy handling
- no calibration required
- ready for immediate use
- for gaseous and liquid CO₂

Easy step by step instruction
