

PRESS RELEASE

ASCOJET Dry Ice Blasting convinced visitors at the 121st Metalcasting Congress

From April 26 to 27, ASCO CARBON DIOXIDE INC presented its wide range of ASCOJET Dry Ice Blasting Units at the Metalcasting Congress in Milwaukee, Wisconsin. Dry ice blasting allows an efficient yet gentle cleaning of all kind of surfaces.

ASCO CARON DIOXIDE INC is a subsidiary of the Switzerland based ASCO CARBON DIOXIDE LTD. ASCO is a major manufacturer of dry ice blasting machines and CO₂ related equipment. ASCO Inc. advises plus supports all North American customers when it comes to the correct application of dry ice blasting and the purchase of the right dry ice blasting device. Zane Butler, General Manager of ASCO Inc., is pleased about the many interesting discussions he had with booth visitors: "During the two days, we were able to inform numerous interested visitors about the ASCOJET Dry Ice Blasting Technology and the feedback has been consistently positive. For us a clear sign that in the United States there is great demand for different cleaning solutions and providers. In addition, very good contacts were established on which new business will be based on in the future."

ASCO Inc. solutions does not only include expert advice on the choice of the most appropriate ASCO Dry Ice Blasting Unit. It is also important to have a supply of dry ice in the right quantity, at the right time and in the right place. These attributes and above all excellent quality are needed to achieve an optimal cleaning result. As a complete supplier of dry ice blasting and dry ice production machines, ASCO Inc. attends to its customers with expert advice on all matters.

In the next few weeks, ASCO will introduce a new product innovation in the field of dry ice blasting which will further complete the existing portfolio for dry ice blasting machines and will open up new possibilities for applications.

About ASCO

Swiss ASCO CARBON DIOXIDE LTD is a provider of complete CO₂ and dry ice solutions with customers worldwide. The product range includes CO₂ Production and CO₂ Recovery Plants, ASCOJET Dry Ice Blasting Units, Dry Ice Production Machines, CO₂ Cylinder Filling Systems, CO₂ Vaporisers, CO₂ Storage Tanks, CO₂ Dosing Systems for Water Neutralisation and various other CO₂ and dry ice equipment. Thanks to this broad product range and more than 130 years of practical experience in the wide field of CO₂ and dry ice, customers benefit from individual complete CO₂ solutions from a single source. Since 2007 ASCO has been part of the international industrial gas enterprise Messer Group and is its competence centre for CO₂. By joining forces with the German BUSE Gastek GmbH & Co. KG, based in Bad Hönningen, in the year 2014, the expertise and product portfolio was pooled and significantly expanded. This applies in particular to the complex field of CO₂ recovery. In July 2016, the US subsidiary ASCO CARBON DIOXIDE INC (ASCO Inc.), based in Jacksonville/Florida, was founded. ascoco2.com
