

PRESS RELEASE

ASCO presents latest CO₂ plant technology at drinktec 2017

ASCO CARBON DIOXIDE LTD covers all market needs for CO₂ recovery plants in the most innovative and reliable way. As a full-service supplier, ASCO presents its broad CO₂ portfolio at drinktec 2017 in Munich, hall B3 / booth 339.

ASCO's plant portfolio ranges from CO₂ production plants, CO₂ stack gas recovery plants, recovery from waste products with highly concentrated CO₂ to CO₂ recovery from earth sources and biogas. Here ASCO's CO₂ recovery capabilities and ecological approach are firmly linked to each other.

For breweries and drink manufacturer, the Swiss company successfully provides CO₂ By-Product Recovery Plants (BPR). This modern ASCO system takes over the environmentally friendly recovery and treatment of the carbon dioxide. The recycled high-quality CO₂ corresponds to international food and beverage standards which is why the gas can be safely recycled into the production plant.

Visit ASCO at drinktec 2017 (hall B3, booth 339) and be inspired by ASCO's latest products, technologies and services.

About ASCO

Swiss ASCO CARBON DIOXIDE LTD is a provider of complete CO₂ and dry ice solutions with customers worldwide. The product range includes CO₂ Production and CO₂ Recovery Plants, Dry Ice Blasting Units, Dry Ice Production Machines, CO₂ Cylinder Filling Systems, CO₂ Vaporisers, CO₂ Storage Tanks, CO₂ Dosing Systems for Water Neutralisation and various other CO₂ and dry ice equipment. Thanks to this broad product range and more than 130 years of practical experience in the wide field of CO₂ and dry ice, customers benefit from individual, complete CO₂ solutions from a single source. Since 2007 ASCO has been part of the international industrial gas enterprise Messer Group and is its competence centre for CO₂. By joining forces

with the German BUSE Gastek GmbH & Co. KG, based in Bad Hönningen, in the year 2014, the expertise and product portfolio was pooled and significantly expanded. This applies in particular to the complex field of CO₂ recovery. In July 2016, the US subsidiary ASCO CARBON DIOXIDE INC (ASCO Inc.), based in Jacksonville/Florida, was founded. ascoco2.com
