

PRESS RELEASE

Gasworld Conference in Kuala Lumpur 3.- 5. December 2018

More than 240 delegates from 27 countries (and nearly 60 visitors to the exhibition area) joined the Gasworld Conference at the Renaissance Kuala Lumpur Hotel for the two-day conference, which featured engaging speeches from industry insiders and 39 promotional booths on display.

Under the theme Business Models & Tools for Success, day one of the conference set the scene exploring industrial gas business models, trending gases, safety and security. Day two provided a platform for more exploration of the trends emerging the world over for the gases industry and how these may affect business in the Asia-Pacific region.

The ASCO Team was represented by Juerg Maron and Roberto Sammali, both Regional Sales Directors for CO₂ systems who were pleased to welcome many visitors at the ASCO booth to discuss their requirements for CO₂ projects. The Gasworld Conference proved to be an interesting spot to be - the conference was a great success, once again. In addition to a large number of interesting discussions they were also able to receive inquiries regarding CO₂ recovery systems and dry ice machines.

About ASCO

Swiss ASCO CARBON DIOXIDE LTD is a provider of complete CO₂ and dry ice solutions with customers worldwide. The product range includes CO₂ Production and CO₂ Recovery Plants, Dry Ice Blasting Units, Dry Ice Production Machines, CO₂ Cylinder Filling Systems, CO₂ Vaporisers, CO₂ Storage Tanks, CO₂ Dosing Systems for Water Neutralisation and various other CO₂ and dry ice equipment. Thanks to this broad product range and more than 130 years of practical experience in the wide field of CO₂ and dry ice, customers benefit from individual, complete CO₂ solutions from a single source. Since 2007 ASCO has been part of the international industrial gas enterprise Messer Group and is its competence centre for CO₂. By joining forces with the German BUSE Gastek GmbH & Co. KG, based in Bad Hönningen, in the year 2014, the expertise and product portfolio was pooled and significantly expanded. This applies in particular to the complex field of CO₂ recovery. In July 2016, the US subsidiary ASCO CARBON DIOXIDE INC (ASCO Inc.), based in Jacksonville/Florida, was founded. ascoco2.com
