

PRESS RELEASE

Messer Vardar Tehnogas D.O.O.E.L Macedonia expands dry ice production with ASCO Dry Ice Pelletizer A55P

Messer Vardar Tehnogas Macedonia expands its dry ice production with the ASCO Dry Ice Pelletizer A55P, replacing its previous ASCO Dry Ice Pelletizer A25P. The ASCO Dry Ice Pelletizer A55P (55 kg dry ice per hour) is an ideal and inexpensive tool for gas companies to regularly supply an extended geographical area with fresh dry ice by establishing smaller production centres. Messer Vardar Tehnogas Macedonia supplies customers in Bitola, Skopje and other locations. They also have an ASCO Dry Ice Reformer A600R to optimize the production of dry ice blocks of various sizes by compressing dry ice pellets. The ASCO Dry Ice Reformer A600R is an excellent tool to complement the dry ice pellets' business with dry ice blocks.

Like ASCO, Messer Vardar Tehnogas is a subsidiary of the Messer Group. The Messer Group is the world's largest family-run gas company. Under the brand "Messer - Gases for Life", the company offers products and services in Europe, Asia and the United States of America.

About ASCO

Swiss ASCO CARBON DIOXIDE LTD is a provider of complete CO₂ and dry ice solutions with customers worldwide. The product range includes CO₂ Production and CO₂ Recovery Plants, Dry Ice Blasting Units, Dry Ice Production Machines, CO₂ Cylinder Filling Systems, CO₂ Vaporisers, CO₂ Storage Tanks, CO₂ Dosing Systems for Water Neutralisation and various other CO₂ and dry ice equipment. Thanks to this broad product range and more than 130 years of practical experience in the wide field of CO₂ and dry ice, customers benefit from individual, complete CO₂ solutions from a single source. Since 2007 ASCO has been part of the international industrial gas enterprise Messer Group and is its competence centre for CO₂. By joining forces with the German BUSE Gastek GmbH & Co. KG, based in Bad Hönningen, in the year 2014, the expertise and product portfolio was pooled and significantly expanded. This applies in particular to the complex field of CO₂ recovery. In July 2016, the US subsidiary ASCO CARBON DIOXIDE INC (ASCO Inc.), based in Jacksonville/Florida, was founded. ascoco2.com
