

PRESS RELEASE

Messer France installs ASCO CO₂ vaporiser for vegetable cultivation

Messer France has installed an ASCO CO₂ vaporiser (capacity: 1000 kg/h) for a major customer in the south of France. The CO₂ is used for growing tomatoes in greenhouses. Compared to a conventional standard electric vaporiser, the ASCO CO₂ vaporiser also achieves energy savings of over 95 %. Messer France produces and supplies a wide range of industrial, food, medical and specialty gases such as oxygen, nitrogen and carbon dioxide. Messer also offers its customers turnkey solutions (gases, application technologies, hardware and related services) so that they can concentrate on their core business. Like ASCO CARBON DIOXIDE LTD, Messer France is a subsidiary of the Messer Group. The Messer Group is the world's largest family-run gas company.

About ASCO

Swiss ASCO CARBON DIOXIDE LTD is a provider of complete CO₂ and dry ice solutions with customers worldwide. The product range includes CO₂ Production and CO₂ Recovery Plants, Dry Ice Blasting Units, Dry Ice Production Machines, CO₂ Cylinder Filling Systems, CO₂ Vaporisers, CO₂ Storage Tanks, CO₂ Dosing Systems for Water Neutralisation and various other CO₂ and dry ice equipment. Thanks to this broad product range and more than 130 years of practical experience in the wide field of CO₂ and dry ice, customers benefit from individual, complete CO₂ solutions from a single source. Since 2007 ASCO has been part of the international industrial gas enterprise Messer Group and is its competence centre for CO₂. By joining forces with the German BUSE Gastek GmbH & Co. KG, based in Bad Hönningen, in the year 2014, the expertise and product portfolio was pooled and significantly expanded. This applies in particular to the complex field of CO₂ recovery. In July 2016, the US subsidiary ASCO CARBON DIOXIDE INC (ASCO Inc.), based in Jacksonville/Florida, was founded. ascoco2.com
